Atmospheric electricity ment may forbid the introduction of foreign never remains for any length of time on the

As a general thing, no capital is less profita le than that invested in a newspaper, seen discharges of electricity from the instruowing, probably to the neglect of subscribers to pay. The National Inieligencer forty or fifty miles distant. alone has over \$250,000 owing to it by bad subscribers. Many of the papers, however, ealis on the w res, and the record on the paafter they are vell established, and have per, is entirely different from that of the atobtained a large circulation, make money very rapidly. The total circulation of the itself from the wires with a flash and report, New York Tribune is 77,000 copies; and and without the ail of a conductor, as is the annual expers s are about \$75,000; and the case with the latter, it glides along the annual profits, clear of all expenses of every wires in one continuous stream, producing kind, are upwards or \$80,000

The annual profits of several other pa-by the galvanic battery. It is well k own that only the positive pole of the battery propers are as follows: The New York Sun, 60,000 dollars; Jonrnal of Commerce, 45,000 dollars; Courier afive having the contrary effect of bleech and Enquirer, 40,000 dollars; Phila lelphia ing it; the same is also true of the two cur-

dollars. The New York Herald is supposed to be worth \$160,000; the aggregate number of copies issued in a year is near 15,000,000; 13,000 dollars are paid out annually for paper; the income of the office is \$400,000; the advertisements alone are worth \$159,-000. It has fifteen editors and reporters, and eighteen or twenty foreign correspondents-making in all including printers, pressmen, clerks, &c., two hundred persons

employed in the establishment. The United States Gazette, says an exhange, sold, a few days since, for \$45,000; and the Missouri Republican was purchas ordered his son, Harvey Morrow a youth now at 100,000 dollar , and would, proba-

The New York Sun has a circulation of 53,000, and pays out for paper alone, per the whole charge entering his forehead, taannum, 150,000 dollars, and for editors, re- king off the entire upper part of his head, portors, and &c., exclusive of compositors, scattering his brains in a most horrible man-30,000 dollars. It is printed on a pre's ner. The murderer was taken, and after which strikes off 20,000 per hour, and its daily issue is larger, probably, than that of any other paper in the world. It is a penny ther trial. paper, and conducted upon the cash sys-

The Philadelphia Ledger has a daily circulation of 55,000, and has made its proprietors wealthy.

The Ballimore Sun not long since erected in iron building for its publication house, at cost of 75.000 dollars.

The London Times, the brag journal of Europe, is said to have a circulation of 33, -000 and its income upwards of \$2,000,000 now in New Mexico, makes known that a per anum; its profits are about 500,000 dollars. This press is said to wield an astonishing influence in Europe. "Stocks fall with rapidity on the stroke of its editorial pen, and a leading article from its gifted conductors will shake a throne and may drag down principalities and powers," It is a joint stock concern, and its principal editor receives a salary some years since, of £6,000, or about \$30,000 per annum. Its advertisisng is enormous and paid for before it goes into the paper. The new advertisements in a single day have been known to reach as high as 1,033. Probably the income from this source for a single day would

be 2,000 or 6,000 dollars per annum. Owing to the tyrannical laws in France the circulation of the press is limited .-The following is the circulation of the principal papers in Paris: Constitutionel, 23, 000; Siecle, 23,000; Presse, 16,000; Debats. 13,000; Pays, 12,000; Union, 6,000. The circulation of the rest is insignificant.

The fellowing is supposed to be the num

ber of newspapers in the world: Ten in Austria, fourteen in Africa, twenty four in Spain, twenty in Portugal, thirty Asia, sixty-five in Belgium, eighty-five in Denmark, ninety-three in Russia and Poland, three hundred in Prussia, three hundred and twenty in the other Germanic States, five hundred in Great Britain and dingly a balance remaining in our chest of broland, and eighteen hundred in the Uni-Ireland, and eighteen hundred in the Uni-

Pt. Da. asked what they did with one who coulds be Davis's Company, III, recently deemped not sleep. "Del" asked the Sheikh, "why, with 85,000 of School money. He want to we make use of him, and set him to watch New York estensibly to purchase goods, and the cancels."

A Good Anecdore.

The Boston Journal says the President spiritual rappers elucidate the following recently appointed a person to a responsible and lucrative office, and the individual immediately went on a "glorious jollification." The Senators who had recommended him to the favor of the President, finding that he had disgraced himself and was unworthy of confidence, waite lupon the President, strted the facts, and asked for his removal from office. The President earl:

"If I were to remove him now the consequence would be inevitable ruin to him-The shame and disappointment attending his dismissal from office, under such circumstances, would lead him to find solace in the intexicating bowl, and he would become a confirmed inebriate; whereas, if this conversation is repeated to him, he may, undation. These levees will be raised and probably will, reform, and become a twelve feet above the point reached by the sober and exemplary citizen. I shall not flood in 1844, and eighty feet wide on the remove him from office for this offense; but this, as it has been the first, so will it be the last time I can forgive him."

me by Adams' Express a toung lady of the tinent. The London Times says: At the late right kind, who would be willing to make public siles, nearly all the stock then in Lon-California her home, as I am busy, I have Jon was sold, and the warehouses are conveno time to attend to it myself, I will do as quently beginning to look very empty. The advices from the continent represent light stocks and high prices. In Germany, the old stock is nearly exhausted, and the conseacite coal trade of Pennsylvania is gradually quence is that the next clip has already, inmany cases, been contracted for at much higher prices than those of last year.
